

Foody – The Classboard for everyone

Gino Messmer - ◆

- Software Architect, Lead Integrator, Deployment Manager, Configuration Manager

Imke Schmidt - ◆

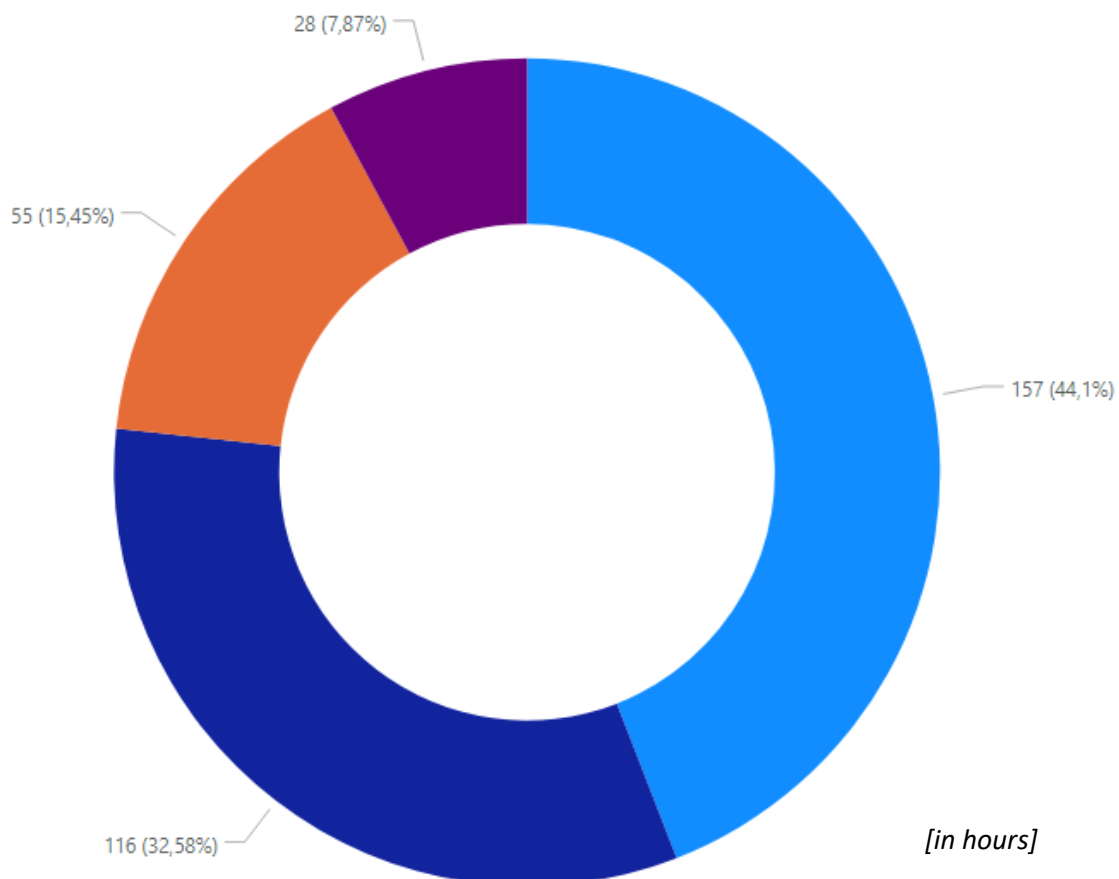

- Implementer, Test Manager, Process Manager

Isabell Reitler - ◆

- Implementer, Change Control Manager

Robin Matejka - ◆

- System Analyst, Project Manager, Process Engineer, Change Control Manager

Please Note: In Azure DevOps it's not possible to assign a task to multiple users. As we had several tasks fulfilled by more than one user, the additional worktime can not be displayed. This case occurs especially in the frontend section of the team, so the times for Isabel and Imke should be doubled to be more accurate.
